Guideline 0108 (decommissioned)

Blown-In and Loose-Fill Insulation from Woodchips or Wood Shavings (decommissioned)

Version: Nov. 2, 2026
for the awardance of the eco-label

decommissioned

Introduction

This guideline was decommissioned on 1 July 2026 by a resolution of the Criteria Commission and the Executive Board.

Products certified in accordance with these requirements remain valid until the end of the licence period and must continue to comply with the requirements of this guideline.

The product group described here will in future be covered by Guideline 0107 "Blown-in Insulation Materials".

1 Application Areas

The following criteria contain the requirements for the awardance of the natureplus eco-label for blown-in and loose-fill insulation from woodchips or wood shavings. The award guideline is to be applied exclusively to those products mentioned in this guideline.

2 Award Criteria
